

BALDWIN COUNTY SOLID WASTE LITTER PATROL

*A Service of the Baldwin County
Commission*

Litter Patrol

- Over 2,000 Miles per year
- Over 200 Tons per year
- 2008 – present: operated by Solid Waste Department
- Budget for Litter Department has decreased \$78,900 over the past 4 years

Litter Patrol Trucks

Litter Patrol Vehicles are typically dual rear wheel, crew cab trucks with a flat bed

Truck numbers are usually affixed above the front fenders

Roadside Litter Collection

Warning Signs are deployed in front of and behind the area where litter is collected.

Signs deployed along a section of CR 47 North of I-65 North and South of the Collection area

Roadside Litter Collection

Inmates are utilized for roadside litter collection

All personnel working on the roadsides wear reflective vests

Roadside Litter Collection

Litter Patrol Trucks will generally park along the roadside while inmates collect litter-the inmate supervisor driving the truck must keep the inmates in site at all times

Roadsides are often very steep and the Litter Patrol Trucks have difficulty pulling completely off the side of the road

Litter Collection and Disposal

- Litter is collected and bagged, and transported to BCSW facilities for Disposal
- Bulky items that may be collected by hand are also picked up if possible, such as discarded furniture

BALDWIN COUNTY SOLID WASTE LITTER PATROL PROGRAM

- Citizens are asked to keep a watchful eye for Litter Patrol and all service workers working on roads and roadsides.
- Close calls (near accidents) have increased in recent months. Please be advised that litter patrol workers collect litter from the “white line” to the termination of the right-of-way and may be very near the roadside at times.
- Litter Patrol usually patrols roadsides in 4-5 mile segments. Signs are posted in each direction along the litter pick-up “segment” – litter patrol personnel may be located at any point along the section of roadway.
