Fort Morgan Planning & Zoning Advisory Committee:

FORT MORGAN PLANNING AND ZONING ADVISORY COMMITTEE MEETING
SEPTEMBER 22, 2016

A called meeting of the Fort Morgan Planning and Zoning Advisory Committee was held at the Shell Banks Baptist Church on September 22, 2016 in response to a request submitted by Mr. Bill Mathews to rezone his property, 0.453~ acres from RSF-1 to RSF-3, Case No. Z-16034.

In the absence of Chair Ken Steiner, Vice Chair Bonnie Lowry chaired the meeting.

The members reviewed the map, discussed the possible outcomes of the rezoning, and unanimously voted to recommend approval of the request with one addition:

“No objection to the rezoning from RSF-1 to RSF-3, but restricted to a single-family dwelling only.”

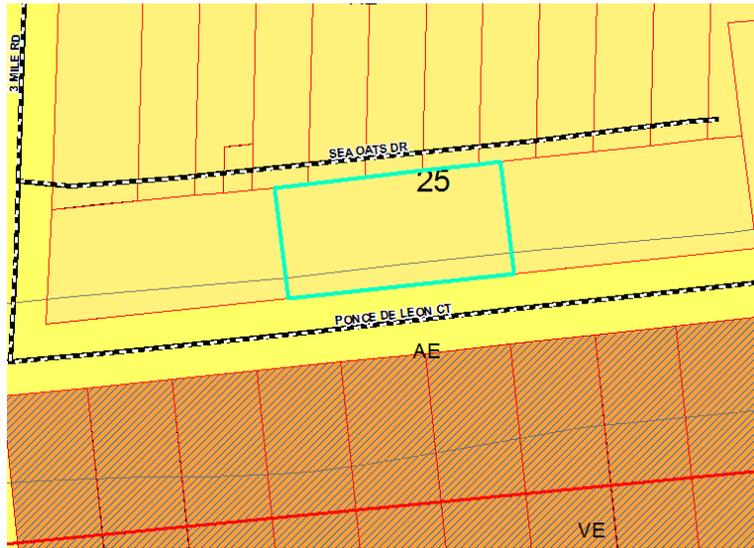

Submitted by Secretary, Carol N. Kittrell

Staff Analysis and Findings

The following factors for reviewing zoning amendments are found in Section 19.6 of the *Baldwin County Zoning Ordinance*. These factors are to be considered when an application is being reviewed for rezoning.

1.) Is the requested change compatible with the existing development pattern and the zoning of nearby properties?

The subject parcel is currently occupied with one single family dwelling. The property adjoins Ponce de Leon Court to the south. The adjoining property to the east is vacant. The adjoining properties to the north, south and west are residential. The adjoining properties are all residential zonings.

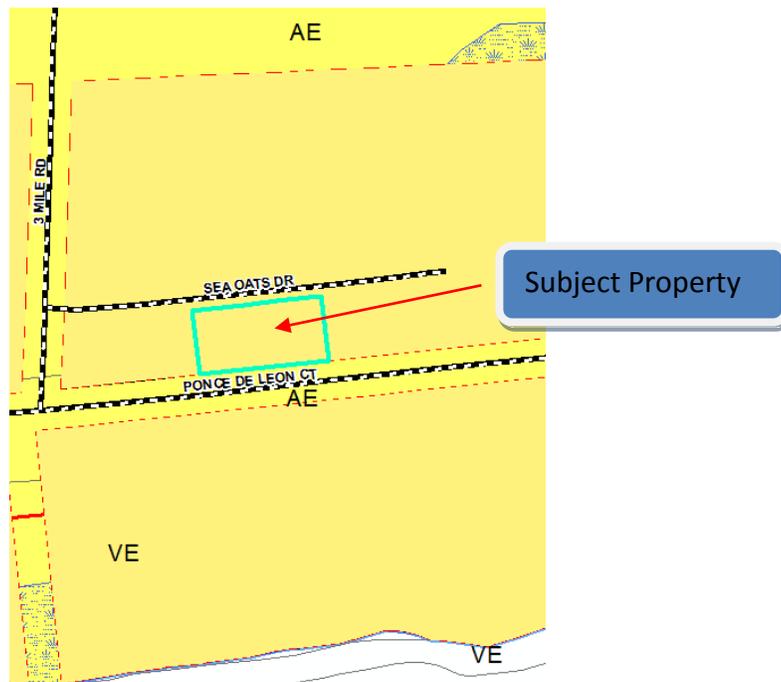

2.) Has there been a change in the conditions upon which the original zoning designation was based? Have land uses or conditions changed since the zoning was established?

Staff is unaware of any changes.

3.) Does the proposed zoning better conform to the Master Plan?

The Baldwin County Master Plan, 2013, provides a future land use designation of Residential for the subject property. This category is provided for residential dwelling units. Zoning designations may include RR, RA, CR, RSF-E, RSF-1, RSF-2, **RSF-3**, RSF-4, RSF-6, RTF-4, RTF-6, RMF-6, RMH and PRD. The proposed zoning is in conformity with the Master Plan.

4.) Will the proposed change conflict with existing or planned public improvements?

No conflicts.

5.) Will the proposed change adversely affect traffic patterns or congestion?

Staff anticipates no major impacts to traffic patterns or congestion.

6.) Is the proposed amendment consistent with the development patterns in the area and appropriate for orderly development of the community? The cost of land or other economic considerations pertaining to the applicant shall not be a consideration in reviewing the request.

The adjacent properties are zoned residential. The proposed zoning designation is a residential zoning classification that would allow for the proposed lot sizes of 10,000 square feet each. In 1993 when the zoning map was approved for Planning District 25 the zoning designations available were different from the current zoning designations.

7.) Is the proposed amendment the logical expansion of adjacent zoning districts?

N/A

8.) Is the timing of the request appropriate given the development trends in the area?

Timing is not a factor with this request.

9.) Will the proposed change adversely impact the environmental conditions of the vicinity or the historic resources of the County?

Staff anticipates no adverse impacts.

10.) Will the proposed change adversely affect the health, safety and welfare of the County and the vicinity?

Staff anticipates no adverse impacts.

11.) Other matters which may be appropriate.

N/A

Staff Comments and Recommendation

As stated previously, the subject property is currently zoned RSF-1, Residential Single Family District, and is occupied with one single family dwelling. The requested designation is RSF-3, Residential Single Family District. According to the submitted information, the purpose of this request is to allow for a family division of land in order for the son to build a house. Accessory dwellings are not allowed in Planning District 25.

The Baldwin County Planning Commission, at its October 6, 2016 meeting, voted to recommend **DENIAL** of the request.

Unless information to the contrary is revealed at the public hearing, staff recommends **APPROVAL**.* of this request.

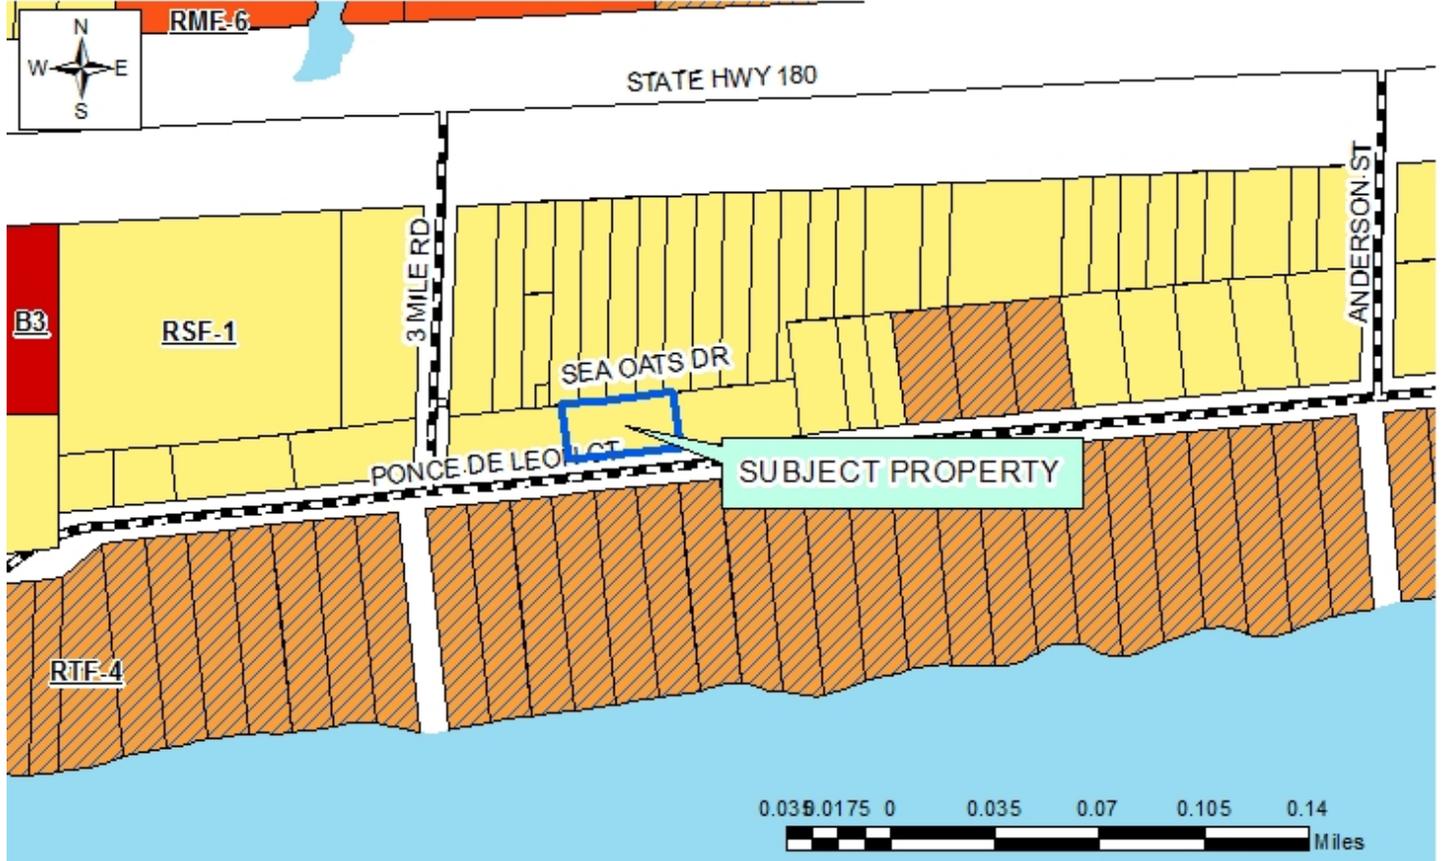

**On rezoning applications, County Commission will have the final vote.*

Planning District 25 Zoning Designations in 1993

ARTICLE VI

DISTRICTS, BOUNDARIES AND GENERAL REQUIREMENTS

- 6.1 ESTABLISHMENT OF DISTRICTS. In order to regulate and restrict the height, number of stories and size of buildings or structures, the percentage of lots that may be occupied, the size of yards, courts and other open spaces, the density of population and the location and use of buildings, structures, and land for trade, industry, residences or other purposes, the Zoning District 25 in Baldwin County has established zoning use districts based on the following use classifications or variations thereof.
- 6.11 R-1, Low Density Residential District. This district is provided to afford the opportunity for the choice of a low density residential environment consisting of single family homes on large lots.
- 6.12 R-2, Medium Density Residential District. The purpose of this district is to provide for medium density residential developments in duplex family structures on medium sized lots.
- 6.13 R-3, High Density Residential District. The intent of this district is to provide the opportunity for high density, single-family, duplex and multi family residential development.
- 6.14 B-1, General Business District. This district is intended to provide opportunity for activities causing noise and heavy traffic, not considered compatible in the more restrictive business district. These uses also serve a regional as well as a local market and require location in proximity to major transportation routes. Recreational vehicle parks, very light production and processing activities are included.
- 6.15 C-1, Outdoor Recreation District. This district is established to preserve and maintain the land within such district for outdoor recreational uses and open space.
- 6.16 C-2, Alabama State Preservation District. This district is established and intended to preserve in their natural state, to the extent possible, those areas that should not be developed due to their unique and environmentally sensitive character. Where the requirements of this district apply to privately held land, such land may be acquired for preservation in the public domain.
