Dear County Commissioner;

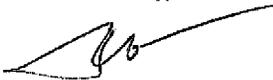

I am writing on the subject of Abortion and how it negatively affects your County. As you probably know, 1 out of 4 Baldwin County Babies are killed by Abortion every year. I stand and pray at our local abortion clinic on Fridays in Pensacola, where dozens of women drive in and have their abortions. At least half have Alabama License plates.

To grow as a county, you must nurture strong families, a growing population and good morals. Abortion on demand negatively impacts Baldwin county. I am asking you to speak out against abortion when you can, and to help us Pray outside the Abortion Mill to End this Holocaust. Praise God, we only are down to one Abortion Clinic in the local level. This is the "American Family Planning" facility at 6115 Village Oaks Drive in Pensacola. It is right behind the Hobby Lobby on Davis Hwy. It is a small metal shack, ill-equipped to provide major surgeries.

The Abortionist is Warren Taylor who is an elderly man who flies in from New Jersey every week to perform abortions Wed-Friday. He flies out immediately on Friday after the last abortion. The girls receive no follow up or after hours help. It is a disgusting operation.

Part of being a good County leader is to speak out against injustice, especially for the unborn citizens of your county, (what is more unjust than methodically murdering of your smallest citizens?) and to help end such a horrible medical operation like that in Pensacola on Village Oaks Drive.

Thank you,
Sincerely,

Thomas Messe, MD
